

BIOZENTRUM WÜRZBURG

Kolloquium

Mittwoch, 17:15 Uhr, HS A101

Julius-Maximilians-
**UNIVERSITÄT
WÜRZBURG**

**24.
April**

Pawel Burkhardt
Evolutionary origin of synapses and neurons
University of Bergen

**08.
May**

Gerald Kerth
Bats and climate change: the importance of long-term field studies
Universität Greifswald

**29.
May**

André Schneider
Mitochondrial biogenesis in trypanosomes - Variations on a theme or fundamentally different?
Universität Bern

**05.
June**

Mathieu Bollen
Regulation and therapeutic targeting of protein phosphatase PP1
KU Leuven

**12.
June**

Martin Egelhaaf
Insects in 3D: Towards an understanding of spatial vision and orientation
Universität Bielefeld

**03.
July**

Carola Hunte
Deciphering Native Solute Carrier Assemblies and Their Regulation
Universität Freiburg

**10.
July**

Adele Marston
Functional organisation of pericentromeres in mitosis and meiosis
WTCC Edinburgh

**24.
July**

Julia Mahamid
Enabling discovery by in-cell structural biology
EMBL Heidelberg
