

BIOZENTRUM WÜRZBURG

Kolloquium

Mittwoch, 17:15 Uhr, HS A101

Julius-Maximilians-
**UNIVERSITÄT
WÜRZBURG**

30. Okt

Ralf Stanewsky

Genetic and molecular bases of the circadian clock of *Drosophila*

Universität Münster

27. Nov

William F. Martin

**In the beginning it was really, really dark:
Hydrothermal vents and the origin of life.**

Heinrich-Heine-Universität Düsseldorf

04. Dez

Manajit Hayer-Hartl

**Into the Heart of Photosynthesis:
Unravelling Rubisco's Cellular Machineries**

Max-Planck-Institut für Biochemie

15. Jan

Ansgar Büschges

**Controlling Multi-segmented Limbs for Locomotion - from
Studying Insects to General Concepts**

Universität zu Köln

29. Jan

Monika Hilker

Early herbivore alert: Plant responses to insect eggs

Freie Universität Berlin

05. Feb

Ian Hickson

**Biophysical and cellular analysis of mitotic human chromo-
somes**

Københavns Universitet
